

W.M. Ironwork Ltd

Powder Coating

Galvanized Panel Hung ready for powder coating (panel hung in front of water wall, this collects and safely disposes of overspray).

Operator in full protective clothing and helmet, sprays desired colour powder onto prepared panel ready for baking

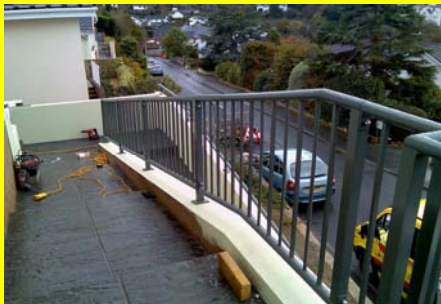

ADD VALUE TO YOUR PRODUCTS - LONGER LIFE.

Panel moved from spray rail into our large oven, for baking at high temperature, to cure powder into a solid coat, for long lasting protection.

Powder coat from Black to White or virtually any colour in between!!

Powder coated panels fitted on site, ideal for those who want a distinctive finish to handrailings, balconies or virtually any steel structure.

FOR ALL YOUR POWDER COATING NEEDS FROM SMALL COMPONENTS TO LARGE STRUCTURES, W.M. Ironwork Ltd ARE HERE TO HELP, GIVE US A CALL TO DISCUSS YOUR INDIVIDUAL REQUIREMENTS.

If you need self colour steel coated we also offer a Shot Blasting Service, which will give you the ideal surface for coating, thus enhancing the life of the finished product.
